

C Program to find sum of positive square elements in an array.

Algorithm:

Step 1: Start

Step 2: input n

Step 3: $i = 1, \text{sum} = 0$

Step 4: while($i \leq n$)

Step 4.1: $\text{sum} = \text{sum} + i * i$

Step 4.2: $i++$

Step 5: Repeat Step 4 until condition becomes false, then go to Step 6

Step 6: Display sum of squares of numbers

Step 7: Stop

Flowchart:
